About the company (www.lendingkart.com) :

Lendingkart Group is a leading finTech startup in SME working capital space which is expected to cross \$1 trillion by 2020. They operate as a digital lending platform that facilitates working capital financing for entrepreneurs and small businesses in India through their network of affiliated lending partners. It uses technology tools based on big data analytics and machine learning algorithm, analyzing over 4,000 data variables from various sources to assess the creditworthiness of small businesses rapidly and accurately. Their main aim is to make working capital finance available at the fingertips of entrepreneurs, so that they can focus on business instead of worrying about the gaps in their cash-flows. Customers can apply for a loan using the web or mobile applications at their convenience and receive their sanctioned loans in as less as 1-3 days anywhere in the country.
