Dear Sir,

Thank you for the positive discussion with Mr. Dheeraj. He was elated about the positiveness in your discussion and welcoming tone for his request. We sincerely appreciate your kind gestures and support.

We would like to deliver a seminar at your esteemed institution about the higher education opportunities for students at international universities across the globe as well as how to **gain scholarships** at globally ranked Universities.

We would also address part-time opportunities, post-study work rights, work visa systems and career growth. The seminar is purely academic in nature and we only aim at giving information required for the students.

Title: Higher education and attracting scholarships at Global Universities: Key Factors to be kept in Mind

Highlights:

- Types of Universities across the Globe
- Scholarships and different types
- Part-time work opportunities while studying
- Job opportunities post education and much more.
- Work permit and options for longer stay
